#### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Mrs. O. E. Radford underwent an operation in a local sanitarium the first of the week.

### OUR RURAL SCHOOL DEPARTMENT

#### New Hope School News.

Friday ended the seventh month of our school. We hope to have two more months.

The names of those who made the highest average in their grades this month are: Karl Ehlo, 10th grade; Kent Knox, 8th grade; Evell Pate, 7th grade; and Joe Bailey Pate, 6th grade.

Benno Wilke has been absent a few days on account of sickness. Carl Shio, Cluren Boyd, Curtis Boyd, and Mitchell Stewart have been absent to work.

Quite a few of the New Hope boys and girls attended the track meet at Lubbock Saturday.

Our school garden is looking pretty, although the freeze injured it some.

The patrons of this community have been taking much interest in the beautification of the school ground. A large number have been here nearly every day since the rain to work. Most everything is completed. Some of the improvements made are concrete reservoir, drinking fountains, concrete walks, and new libraries.
